

In OCASA, we are committed to protecting our employees, clients, suppliers and contractors health and safety, as well as the environment and the communities where we operate. That is why our Policy is based on:

- Ensure that our operations are conducted safely, without compromising the health and safety of our employees, and avoiding negative effects on the environment.
- Provide and ensure an environment, conditions and appropriate protective equipment, as also necessary training for our employees to perform their tasks safely.
- Manage our environmental issues responsibly and in concordance with legal and corporate current requirements, minimizing their impacts on the environment.
- Promote continuous improvement in environmental performance and safety, implementing necessary actions to achieve this goal and sustain it over the time.
- Act quickly and efficiently in any situation that represents a risk to our employees, the environment and / or the community.

All our employees, as well as our clients, suppliers, and contractors operating within our facilities or providing services to OCASA, must comply with this Policy, communicate it to the parties involved and report any deviation to it.

We aim at sharing this commitment through all our value chain and in every community where we operate, in order to foster the protection of our people and the environment, not only in the present but also for future generations.
